Abstract (Basic): JP 6054650 A

Composite protein, wherein protein is combined with lysophospholipid. Emulsion aid, which comprises the above composite protein.

The lysophospholipid pref. includes lysolecithin, lysophosphatidyl ethanolamine, lysophosphatidyl inositol, lysophosphatidic acid, etc. The protein includes egg white albumin, lactoalbumin, casein, casein, soybean protein, gelatin, etc. Aq. soln. of lysophospholipid and aq. soln. of protein are mixed, blending and kneading, and the resulting soln. is spray-dried or freeze-dried, whereby the present composite protein is obtd.

USE/ADVANTAGE - The present composite protein shows high emulsifying ability and can be used as emulsion aid.
